of infocommunication. Socio-psychological conditions for the optimal interaction of the subjects` of infocommunication

On November 22, 2019 the III Scientific Conference "Mediation in a Family Conflict" has took place. The organizers were the Commissioner for Children in the Saratov Region, the Faculty of Psychology (SSU), the Legal Psychology laboratory (SSU). The conference was timed to the World Children's Day. Russian scientists and practitioners in the mediation issue, psychologists, lawyers, sociologists, school teachers from different regions of the Russian Federation has attended the conference. The conference has become a significant platform for the dialogue between the Saratov City Administration,, scientists, the professional community of mediators, psychologists, lawyers, social educators, and school teachers. Following the conference, a collection will be released.

On December 6, 2019 the V International Conference "Legal and Psychological Foundations of Mediation: Problematic Aspects". The conference has brought together the mediators, psychologists, lawyers, sociologists, teachers from different regions of the Russian Federation and other countries. The event was organized by the Faculty of Psychology and the Faculty of Law. Almost a hundred participants from Moscow, Khabarovsk, Volgograd, Lipetsk, Orenburg, Simferopol, Krasnoyarsk, Kazakhstan, Belarus and the Czech Republic has took part in the conference.

The culmination of scientific events of the year was the Conference "Personality in the Situation of Social Changes". The socio-economic changes, the flexibility of organizational structures, the transformation of the education system were discussed by scientists in psychology and education. Both issues were discussed the individual in a situation of change and transforming social institutions.

The conference "Personality in a Situation of Social Changes" brought together scientists from different regions of Russia: St. Petersburg, Nizhny Novgorod, Makhachkala, Volgograd, Tolyatti, Perm, Surgut and the Saratov Region. The use of IT-technologies allowed for the speakers to present the results of their scientific research on-line. The conference was broadcast to partners via the Internet. Doctor of Psychology, professor of the Department of Applied Psychology M.A. Bendyukov (Emperor Alexander I St. Petersburg State Transport University, the PGUPS, St. Petersburg) has presented his author's concept of professionally determined crises in the lack of state employment guarantees. Associate professor of the Department of Management Psychology, NNSU named after Lobachevsky M.V. Prokhorova (Nizhny Novgorod) has presented the results of the research in the organizational development issue.

The Dean of the Faculty of Psychology, professor L.N. Aksenovskaya has given to the public new facets of the Order concept of organizational culture. Interesting speeches were presented by colleagues from Dagestan State University (Professor M.M. Dalgatov, associate professor A.M. Mutalimova and others).

Concluding the review of the scientific conferences, we should note its high rating by participants, guests, and also by those for whom all this is done - students of the Faculty of Psychology. Students of the Faculty have expressed pride for the faculty because of the conferences. The Faculty has held so many interesting events and has so many partners from different countries and different universities. This provides to the students the opportunity to have the intensive scientific dialogue with leading psychologists from different parts of the world and from different parts of Russia.
